Jerusalem for Russian-speaking Jewry**

Dedication, Commitment, and Resilience for Enriching Jewish Lives

Foreword from Gedolei Israel

As a result of huge Russian-speaking aliya, there are many Jews in Israel who don't know anything about Yiddishkeit. Baruch Hashem, we have merited that Toldot Yeshurun has been established and many Russian Jews are learning the Dvar Hashem and are coming close to Yiddishkeit through learning with the best of Russian-speaking avreichim. It is a great mitzvah to give substantial help to this organization so it can continue to accept more Jews who are far from their heritage and teach them Torah.

Foreword from Rav Benzion Zilber *shlita*

Baruch Hashem, a lot of good things have been done with your support to restore the greatness of Russian-speaking Jewry, who lives according to the Torah. But there is still a lot to do... The time has come to build a house of Russian-speaking Jewry in Jerusalem. It is a big mitzvah to help!

Jerusalem Torah Center For Russian-speaking Jewish Community

New First-Ever Torah Center Project for Russian- speaking Jewish Community

In 2018, we launched the most important milestone project of the construction of the first Torah Center, which will include yeshiva, kollel, dining, and office facilities. One of the most significant public attractions inside our Torah Center will be the Historic Museum of Eastern European Jewry. The museum will contain unique photo and video materials that will demonstrate the profoundly rich history of more than 5 million Jews in the last 200 years.

With Support of Gedolei Israel

“Whoever assist them in their spreading the light of holiness will see blessing from his labors. BeBracha Meruba”.

Rav Yosef Shalom Elyashev zt"l

We encourage up the hearts of those whose hearts are generous, to stand to the right for the continuation of this holy yeshivah, and they will merit that the merit of the Torah will stand by all who help it, that they should see blessing in the deeds of their hands and nachas from all their offspring.
